MECHANICAL

Valid to: August 31, 2027

Certificate Number: 1719.01

In recognition of the successful completion of the A2LA evaluation process, accreditation is granted to this laboratory for the following environmental simulation and mechanical tests on the following products and materials: aircraft components, automotive components, gaskets, seals and packings, packaging and containers, pipes, hoses, valves and fittings, rubber and rubber products, tools, windows and doors, wiring harnesses, subassemblies, telecommunication cabinets and components in the Telecommunications, Aircraft, Aerospace, Automotive, Medical, Defense, Electronics and Agriculture industries.

Note: This lab is capable of performing current and older versions of MIL-STD-810 (versions B through G) and RTCA/DO-160 (versions B through G) for the methods listed above.

The methods listed above on this Scope are accredited. The following test method is a guideline utilized to perform the above fungus test: ***MIL-HBK-454B, Guideline 4.***

¹Also using customer specific test methods utilizing any combination of test equipment parameters listed above.

²This scope meets A2LA's *P112 Flexible Scope Policy*.

³This laboratory performs field testing activities for these tests.

⁴When the date, edition, version, etc. is not identified in the scope of accreditation, laboratories may use the version that immediately precedes the current version for a period of one year from the date of publication of the standard measurement method, per part C., Section 1 of A2LA *R101 - General Requirements-Accreditation of ISO-IEC 17025 Laboratories*.

Uncontrolled If Printed

Accredited Laboratory

A2LA has accredited

ELEMENT MATERIALS TECHNOLOGY MINNEAPOLIS LLC

Minneapolis, MN

for technical competence in the field of

Mechanical Testing

This laboratory is accredited in accordance with the recognized International Standard ISO/IEC 17025:2017 *General requirements for the competence of testing and calibration laboratories*. This accreditation demonstrates technical competence for a defined scope and the operation of a laboratory quality management system (refer to joint ISO-ILAC-IAF Communiqué dated April 2017).

Presented this 27th day of October 2025.

A blue ink signature of Mr. Trace McInturff, written in a cursive style.

Mr. Trace McInturff, Vice President, Accreditation Services
For the Accreditation Council
Certificate Number 1719.01
Valid to August 31, 2027
Revised April 9, 2026

For the tests to which this accreditation applies, please refer to the laboratory's Mechanical Scope of Accreditation.
